9%

- Signals, Signs
- Pavement Markings
 - Lights
 - Guardrail

Roadway Services

48%

- Road Surfaces
 - Bridges
 - Tunnels

Facility, Equipment and Other Services 20%

- Safety Rest Areas
- Support Facilities
- Equipment
- Ferries
- Sidewalks/Trails
- Management & Direction

SAFETY AND THE CENTERLINE

VDOT's approach to delivering maintenance and operations services begins with the overriding principle and goal of ensuring the safety of the traveling public. Therefore, all VDOT maintenance and operations services shall be delivered in accordance with the following priorities:

- 1. The first priority in all maintenance and operations activities shall be work that is directed specifically to the immediate safety of the traveling public.
- 2. The second priority in all maintenance and operations activities shall be to those activities which contribute primarily to the preservation of the road.
- 3. All other activities intended primarily for aesthetics, upgrading (construction), or other items not relating to the preservation of the road or to specific safety hazards, shall not be done in lieu of work categorized as priority one or two.

In order to achieve our top priorities while carrying out these services, maintenance and operation services will be delivered by applying a *centerline-out approach*

MAINTENANCE AND OPERATIONS SERVICES

- 1. Emergency and Safety Response Services
 - 1. Incident Response/Clearance
 - Crashes and Accidents
 - Hurricane and Severe Weather Events
 - Hazardous Materials Spills

VDOT

SERVICES/PROGRAMS REVIEW FRAMEWORK

- The focus will be on service performance tailored to the following goals:
 - Maintaining Emergency Response
 - Safety of the traveling public
 - Priorities established from the centerline to the edge of the right of way
 - Service tailored to urban and rural settings
- A team is updating the standards using this approach
- Receive public comments in March 2009
- Implementation of service changes will begin July
 1, 2009
